Integrity □ Service □ Excellence

Description Controlled Exceptions (CEX)

AFSA

- **Controlled Exceptions (CEX) occur when a transaction fails one or more of the SAMIS edits.**
- **During overnight batch processing, SAMIS edits each transaction and assigns a CEX number to each transaction that is suspended because it fails the edits.**

Description Controlled Exceptions (CEX)

AFSA

- **SAMIS automatically generates a listing of all transactions that contained an error**
- **SAMIS assigns number to identify each transaction containing errors**

Description

Controlled Exceptions (CEX)

AFSA

- **SAMIS lists the suspended transactions in 80-card column MILSTRIP format along with the error code that explains why it rejected**
- **It is not unusual to have more than one error on one transaction.**
- **Transactions that have a CEX error are **SUSPENDED** in SAMIS until CEX error is corrected.**

- **Controlled Exception Viewer** is a convenient way to view all **uncorrected** CEXs by country code, case designator, or MDD.
- **Controlled Exception Viewer** is for viewing only. Correction of a CEX has to be done through SAMIS.

Note: Foreign Nationals cannot correct Controlled Exceptions. Use procedure on next slide for reporting CEXs.

- 1. Monitor your Controlled Exceptions on the Controlled Exception Viewer**
 - **A0_ and NMCS transactions should be resolved within 3 days**
 - **All other transactions should be resolved within 7 to 14 days**
- 2. After waiting period, contact your Command Country Manager (CCM) at AFSAC and ask for status.**

The **Controlled Exception (CEX) Viewer** tool is accessed through the **Supply Application** link in AFSAC Online.

- Business applications
(Use the navigation menu to access business applications)

We provide a number of Business Applications to provide our customers visibility into their country programs.

The National AFSAC is a re-host of the most commonly used SAMIS queries such as: Requisition History, Catalog Data, Control Data, etc.

We also provide a number of Logistics and Financial Applications as well as Worldwide Warehouse Applications (WWRS), Tech Order Index, Parts and Repair Ordering System (PROS) II Monthly Metrics, Letter of Request (LOR) Submission/ Validation and AFSAC Metrics.

We are constantly striving to develop new tools for our customers. Look for account automation features such as automated password resets and additional AFSAC Online Metrics in upcoming months.

Access our business applications directly from our navigation menu on the left side of all our pages.

- New Tutorials

A link has been added to our menu to access tutorials for our Business Applications. These tutorials are PowerPoint Presentations.
